

INTERAGENCY EMERGENCY

HEALTH KIT 2024

KIT INFORMATION

The Interagency Emergency Health Kit (IEHK) 2024 is primarily intended for displaced populations affected by emergencies, who have limited access to routine health care services.

A complete emergency health kit contains 10 basic units and one of all supplementary units, and includes medicines, disposables, and instruments to meet the needs of 10.000 people for three months.

The full kit or kit modules and units can also be used for the initial supply of primary health care facilities where the normal system of provision is interrupted. However, it is not intended as re-supply or to replace existing medical supply chain mechanisms, as this may result in access stock of items or medicines which are not needed.

BASIC MODULE

- Appropriate for use, services, and staffing at primary health care levels or outpatient services that may be available at higher levels of care.
- Kit components corresponding generally to the level and training of nurses and community health care workers.

This module contains oral and topical medicines, medical devices and a malaria unit with oral antimalarial medicines and rapid diagnostic tests. The basic malaria unit can be removed on request.

SUPPLEMENTARY MODULE

- Appropriate for use, services and staffing at hospital levels.
- Kit components corresponding generally to the level and training of physicians, nurses and other staff with specialised training.

This module is designed for hospital use or larger health centres with specialised services. It contains medicines and medical devices as well as a malaria unit for treatment of severe malaria and a PEP unit. The supplementary malaria unit and the PEP unit are included unless requested otherwise.

Source: World Health Organization

IEHK 2024

Designed to meet the initial primary healthcare needs, contains medicines and medical supplies in quantities that are sufficient to assist a population of 10.000 people for approximately 3 months in crisis situations, such as floods, droughts, earthquakes or armed conflicts.

IDA MODULE CODES

The kit follows a modular set-up and can be ordered as a complete kit or as separate modules.

IEHK 2024

BASIC MODULE

Medicine and renewables unit	10 x A152-000-02
Malaria unit	10 x A153-000-02
Equipment unit	10 x A154-000-02

SUPPLEMENTARY MODULE

Oral medicine unit	1 x A155-000-02
Injectable medicine unit	1 x A156-000-02
Cold chain medicine unit*	1 x A157-000-02
Malaria unit *	1 x A158-000-02
PEP medicine unit*	1 x A159-000-02
Renewables unit	1 x A160-000-02
Equipment unit	1 x A161-000-02
Glucometer module patient	1 x A128-002-02
Glucometer module hospital	1 x A129-000-02

* optional (included upon request)

IDA keeps stock of the IEHK 2024 (designed according to UN and humanitarian agencies requirements) and can dispatch the kit within 48 hours in case of an emergency or disaster.
